The Anti-Racist Resource Guide was created for anyone looking to broaden their understanding of anti-racism and get involved to combat racism, specifically as it relates to anti-Blackness and police violence. Within this guide, please find a variety of resources to explore practical ways to understand, explain, and solve seemingly intractable problems of racial inequity, white supremacy, police violence, & systemic injustice.

This document is a free resource but does require a great deal of labor to create and update.
